

MICHAEL ORLANDO

PMP-Certified Project Manager | Cross-Border Program Delivery

Jakarta, Indonesia • +62 822-2502-0469 • Michael.orlanddo@gmail.com • [linkedin.com/in/michaorlando](https://www.linkedin.com/in/michaorlando)

SUMMARY

PMP-certified Project Manager with 3+ years leading **cross-functional teams** that bridge international organizations with on-the-ground operations in Indonesia. Delivered programs across Amazon Web Services (US), Indonesia's Ministry of Health, and global technology vendors — managing **30+ concurrent projects**, driving **20% productivity gains**, and aligning stakeholders across the US, Europe, and Asia. Skilled in end-to-end delivery, **vendor and risk management**, and data analytics (SQL, Tableau, Smartsheet), with hands-on use of AI tools to drive operational efficiency.

WORK EXPERIENCE

Ministry of Health x Akselerasi

Jakarta, Indonesia

Project Manager

02/2025 – Present

- Delivered a citizen-facing app for a national free health-screening program, integrating national ID (KTP) data so residents across 44 community health centers (puskesmas) could access screening results digitally for the first time.
- Coordinated an AI tuberculosis-detection clinical trial between an India-based AI vendor and 2 government hospitals, enabling ~3,000 chest X-ray scans under strict patient-data privacy controls.
- Led a government hospital ERP migration with zero downtime and zero data loss, navigating a broken vendor relationship and missing source code while restoring the staff attendance system.
- Launched 5 food-and-beverage branches in 3 months, driving 50%+ revenue growth through standardized SOPs, POS deployment, and targeted sales campaigns — 3 branches delivered 50% under budget.

Amazon Web Services

Seattle, WA, USA

Project Coordinator

09/2022 – 09/2024

- Implemented an automated Asana workflow managing 30+ concurrent projects, generating leadership dashboards that drove a 20% team productivity increase and a 100% on-time delivery rate.
- Spearheaded a cross-continental knowledge-sharing program connecting IT warehouse teams across Europe and Asia, delivering 2 successful process-improvement projects.
- Established standardized operational dashboards in Smartsheet and QuickSight, improving transparency of warehouse performance metrics across all departments.
- Revamped 25+ operational SOPs, cutting error rates by 20% and cycle time by 10%.

Solar Chapter

Seattle, WA, USA / Indonesia

Lead Project Manager

01/2019 – 05/2024

- Delivered clean-water access to 6,000+ residents across 12 Indonesian villages, leading full project lifecycles — budgeting, procurement, and logistics — on time and within budget.
- Produced a data-driven post-implementation impact report that secured a 40% increase in sponsor funding.

Alfamart

Jakarta, Indonesia

Business Analyst Intern

06/2021 – 09/2021

- Optimized product-placement strategy using SQL, Excel, and Tableau, improving market-expansion efficiency by 18% across grocery locations.
- Analyzed sales history to align promotional campaigns with supplier targets, surpassing the annual sales goal by 20%.

EDUCATION

University of Washington

Seattle, WA, USA

B.A., Business Administration: Operations, Supply Chain Management & Information Systems

06/2022

GPA: 3.65

CERTIFICATIONS & PROJECTS

Project Management Professional (PMP)

05/2024 – 05/2027

Project Management Institute (PMI)

SQL Data Cleaning & Trend Analysis — Analyzed global layoff data (2020–2023) across industries using SQL to surface workforce trends and prepare data for downstream analysis.
